Anikta Srivastav: Farewell

Ankita Srivastav was one of the few leaders in the field of Career Guidance in India and greatly enhanced its cause in this part of the world. She had a deep commitment to the well-being of children and youth from disadvantaged backgrounds. She was an original thinker and brought fresh insights into the field of career guidance and counselling. She was working on a doctoral degree on career guidance for youth who had dropped out of mainstream education which she discontinued to pursue a new life in Canada with her husband. Sadly, she could not break through the barriers that a fresh immigrant faces and returned to India, bruised by the experience.

Ankita was diagnosed with a virulent cancer in June 2015. We lost her a few months later in December 2015. She was 31 years old and an inspiration to many.
